

SERIES 804 QDC PUSH-PULL

Mighty Mouse Connectors and Cables

Receptacles with Crimp Contacts, Integral Shield Termination Platform or Accessory Threads

Series 804 Panel Mount and Inline Receptacles

Feature integral band platform or accessory thread. Choose band platform for direct attachment of cable shield and boot, or overmold directly onto the band platform. Select accessory thread for attachment of backshells. Three shell styles including front or rear panel mount jam-nut and in-line cable receptacles. Fluorosilicone interfacial seal, O-ring and grommet provide IP67 sealing mated. Gold-plated spring provides secure mechanical retention and low shell-to-shell resistance for excellent EMI shielding. Crimp removable contacts are copper alloy and gold plated.
